

ALL SILICONE PENROSE DRAINAGE TUBE

SEWOON MEDICAL CO., LTD.
KOREA

FEATURES AND ADVANTAGES :

- The materials made of all-silicone elastomer, which is entirely free from the clogged of the drainage lumen due to the adhesion of blood or body fluids.
- The tubes are properly inserted into the body after operation for the drainage purposes and ensures the easier and the faster cure.
- The special rib enables fast drainage, and easy liquid-flow.
- The whole tubes have a Blue radiopaque line, which confirms the exact positioning of the tubes in the body.
- * ANY SPECIAL SIZES, OUTER DIAMETERS, OR ANY LENGTHS ARE AVAILABLE FOR MAKING, UPON REQUESTS.

Special screwed inside wall is for easy and smooth drainage without clog.
