

## OBG CELL SCREEN 1-2

### OBG CELL SCREEN 1-2

(Indirect Coombs Cell 1-2)  
Product No: OBGRBCAS2  
Set of 2 vials  
2 x 5 ml

#### INTENDED USE:

These test cells are used for antibody screening and identification.

#### INTRODUCTION:

Patient and donor plasma is screened for atypical antibodies using cells are prepared in advance. They are group O cells that have been tested for the presence of the most commonly encountered antigens. The reliability of antibody detection is largely dependent on the availability of test cells with appropriate antigens and on the sensitivity of the test methods used.
